

Dear SDSU Imperial Valley Community,

As of Thursday, March 19, services and instruction are virtually-based and supported as we continue meeting SDSU Imperial Valley's educational mission and purpose. This work will continue, and is not further impacted by Gov. Gavin Newsom's [statewide "stay at home" order](#), effective at midnight.

I do ask for your patience through this transitional period, and as members of our Information and Instructional Technology department support your technology needs as promptly as possible. Please visit the [SDSU Imperial Valley](#) main web page for contact information and links.

As a reminder, SDSU Imperial Valley personnel pre-authorized to be on campus are members of the Physical Plant and Security Services teams, as are campus administrators. All other personnel must contact me via email directly to request access to campus facilities.

No confirmed COVID-19 cases exist within the SDSU Imperial Valley community.

A reminder to all of our students that instruction resumes via virtual platforms on Monday, March 23. If you need virtual-tutoring assistance, please [sign up online](#) to schedule an appointment.

Thank you all again for all you do to serve the higher education needs of our community.

Adelante!

Gregorio A. Ponce
SDSU Imperial Valley Dean
